## **GTCO CalComp**

As a leading provider of interactive classroom technology, GTCO CalComp has the technology for every school's interactive classroom needs. With the InterWrite School Suite, GTCO has it all – from interactive whiteboards and interactive software to a classroom response system and wireless presentation tools. The four completely compatible products in the Suite give teachers the ability to interactively teach lessons and assess students using the best technology. The products are powered by the InterWrite Software (Windows and Mac compatible) that enhances the interactive power of these tools.
